## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Andrew Chu on February 26, 2009.

The application has been amended as follows:

1. Claim 9, line 1, after "said", please delete (minimal) and add ----maximum----.
2. Claim 12, line 3, after "a protective", please add ----cushion----.
3. Claim 12, line 4, after "respective ear of", please delete (the) and add ----a----.

### **Response to Amendments**

#### ***Specification***

The Amendments to the Specification were received on 12/15/2008. These Amendments are acceptable.

#### ***Drawings***

The drawings were received on 12/15/2008. These drawings are acceptable.

### ***Response to Arguments***

Applicant's Arguments, see pages 8-11 of "Remarks" and New Claims 7-12, filed 12/15/2008, with respect to new claims 7-12 have been fully considered and are persuasive.

### ***Allowable Subject Matter***

Claims 7-12 are allowed.

The following is an examiner's statement of reasons for allowance: The present invention is directed to a headphone and a compatible recording device for spatial sound reproduction. Each earphone includes at least five speakers arranged on a support. The speakers being adapted to reproduce an acoustic field, such that it is perceived as being continuous by the human ear, for acoustic frequencies lower than a given maximum frequency.

The closest prior art, U.S. Patent 6,038,330 (Meucci, Jr.) shows a virtual sound headset and method for simulating spatial sound. Meucci, Jr. fails to apply the Huygens Fresnel principle to reproduce the spatial quality of the sound. Also the spatial origin of the sound in the Meucci patent is different than the present invention in which the sound surface is reproduced corresponding to the addition of spherical waves emitted by the speakers. These distinct features are evident in the independent claims and render the application allowable.

### ***Conclusion***

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

Art Unit: 2614

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
